

## Oprah Loves It!

### The Kindle...

Oprah raved about Amazon.com's Kindle on Friday's show.

It is an electronic wireless reading device. Think of it as an iPod for books, except it doesn't require a computer and can retrieve books, newspapers, and magazines from anywhere.

It's a bit pricey (\$359) for an author's income, but the rest of you might want to check it out at [Amazon.com](http://Amazon.com)

Oprah loves the Kindle, so I now have *Under a Copper Moon* in a Kindle format.

Most Kindle books are \$9.99 or less.

*Under a Copper Moon* is \$6.99 (an introductory special saves you 20% off that).

If you have a Kindle, let me know how the book looks.

I tend to like the feel of crisp paper while I read, turning down pages, running my thumb over the spine... I may get a Kindle, but I'll still buy books.

Have a happy & safe Halloween.
